Intuitive Dashboard

A highly interactive and easily manageable dashboard is built for easier and quicker access to critical information

The dashboard has useful information related to fee, admissions, students & staff strength, task manger and several customizable information.

Students & Staff management

Comprehensive and exhaustive coverage of student and employee profile data elements

Search and Retrieve the complete profile of any student or employee instantly with all details

Import data feature is available for easier updating in one go all the details

Tracks attendance records of students and employees for any given period of time or for the academic year.

Benefits

Reducing business operational cost by 30+%

Great cost saving Return On Investment (ROI) solution

Allows quick ERP solution modification as per customer's requirements or needs.
