

It has always been a challenging task for any education, training institute to maintain huge number of records of students, staff, classes etc in registers. This is not only a cumbersome activity but is error prone too.

Also, there has always been a communication gap between school and parents and it becomes very difficult for parents to remain updated on their ward performance.

CIEE product is a cloud based cost effective solution to every problem that any institute may face with regards to the data management, security, communication, fees, logistics etc.

- A cloud based application that does not require schools to spend lakhs of rupees in setting up a server to host application
- In case of any problem experienced, it can be fixed by our engineers without visiting your premises and it is quick and saves money also
